

Ideation Phase

Brainstorm & Idea Prioritization Template

Date	02 October 2026
Team ID	SWTID-2026-7899
Project Name	Auto Ticket Classification using Flow Designer
Maximum Marks	4 Marks

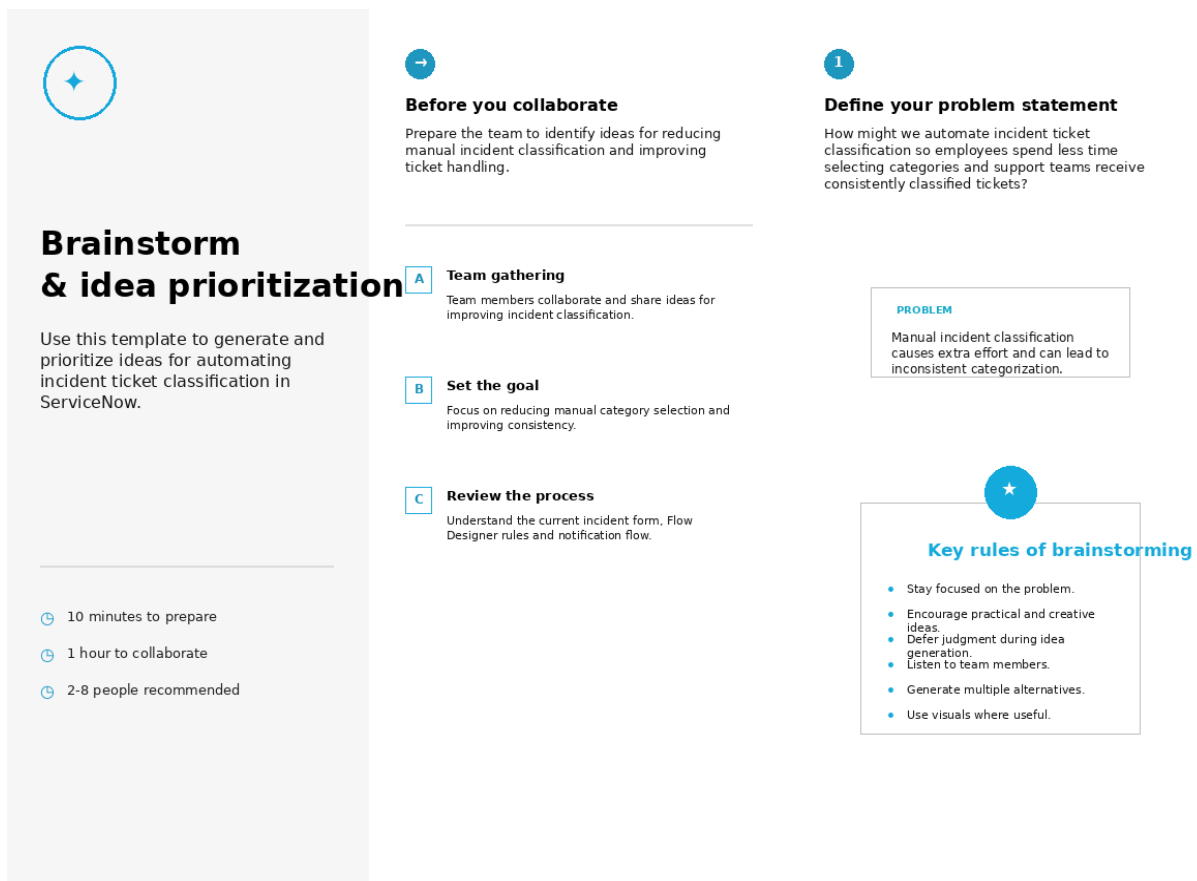

Brainstorm & Idea Prioritization Template:

Brainstorming provides a free and open environment for the team to generate creative solutions for the problem of manual incident ticket classification. Ideas are encouraged without immediate judgment, allowing the team to explore automation, usability, notification, validation, and support-handling improvements.

Use this template to generate, group, and prioritize ideas for automatically classifying ServiceNow incident tickets using Flow Designer and configured keyword-based rules.

Step-1: Team Gathering, Collaboration and Select the Problem Statement

Step-2: Brainstorm, Idea Listing and Grouping

2

Brainstorm

List ideas that could address the problem statement.

Team 1	Team 2	Team 3	Team 4
Keyword-based classification	Automatic category/subcategory update	Clear incident form	Email notification
Team 1	Team 2	Team 3	Team 4
Fallback for unmatched keywords	Admin-maintained rules	Test scenarios	Support-team correction
Team 1	Team 2	Team 3	Team 4
Classification audit view	Reusable flow conditions	Priority-based routing	Better user guidance

3

Group ideas

Cluster similar ideas into solution groups so related concepts can be developed together.

Automation

Keyword rules • automatic category/subcategory • reusable flow conditions

User Experience

Clear form • guidance • confirmation notification

Quality & Control

Test scenarios • admin rule maintenance • support correction

Monitoring & Handling

Audit view • unmatched-keyword fallback • consistent ticket processing

Step-3: Idea Prioritization

4

Prioritize

Place ideas based on importance and feasibility. Focus implementation on ideas that are practical and valuable.
